APURV MISHRA

✉ Apurv3666@gmail.com   📞 +917869420920   🔗 **Portfolio**   in **LinkedIn**   📍**Rewa, Madhya Pradesh**

Education

MCA – Shri Ram Institute Of Technology –RGPV University Bhopal

📅 July 2020 - July 2022   📍 Jabalpur, MP

🎓 **CGPA – 9.2 / 10**

Technical Skills

Programming Languages - Java | BackendDev - SpringBoot, RestAPIs | **Web Dev** - Basic JavaScript, Angular,HTML , CSS | Databases - MySQL, MongoDB | Control version **–** Git | **DevOps-** Gitlab CICD

Profiles

HACKERRANK: apurvmishra - **5 Star problem solver**

— Advanced Problem Solving Certified

Tableau: apurvmishra -

— Made Data Visualization Dashboards

Git: apurvmishra

Achievements

- Hackerrank handle: 5 star (maxrating:16966)
- Certified from Coursera in Structured query language(SQL) from University Of Michigan
- Certified from Coursera in Fundamentals of Visualization with Tableau
- Certified from HackerRank in JAVA

Projects

Employee Management System

Tech Stack - Java, SpringBoot, MySQL

- ➢ Developed an application that manages employee professional and personal details.

Ekart | Online Shopping App

Tech Stack - Java, Html, CSS, MySQL

- ➢ Developed Online Shopping Applications which is manufactured in compliances with Industrial Quality standards.

Experience

💼 **BNY MELLON – Software Development Engineer II**

📍 Pune, India   **July 2022– Present**

- — Developing back-end websites applications using Java SpringBoot.
- — Ensuring responsiveness of applications.
- — Developing Micro Frontends using Angular
- — Working into configure gitlab CICD pipelines for projects to fully automated deployments.

Project:

- ➢ App Usage API

  Developed a robust and scalable App Usage API, designed to capture comprehensive statistics for Any applications. Leveraging my expertise in Java and SpringBoot, I successfully engineered an API that seamlessly integrates into any application, enabling real-time data collection on performance metrics, user engagement, and behavioral insights.

💼 **Thoughtpearl Software - Software Development Engineer I**

📍 Jaipur, India   **Dec 2021– June 2022**

- — Designed, implemented, and Maintained Java application that are often high-volume and low-latency,required for mission- critical systems.
- — Delivered high availability and performance.

Project:

- ➢ Knowledge X - Intelligent Knowledge Management System (Built with Java SpringBoot)

  As the lead developer of the KnowledgeX project, I successfully architected and developed a cutting-edge Knowledge Management System using Java SpringBoot. KnowledgeX revolutionized information handling within the organization by leveraging advanced technologies and AI-driven algorithms.

Learning

- ➢ Microfrontends in Angular
- ➢ React JS
- ➢ System Designs
